

FSMv5: Search for Order & Browse Order

Summary

This Job Aid is for all FSM users using the website to manage orders and tasks.

Table of Contents

- [Quick Search](#)
- [Browse Orders](#)
- [Browse Tasks](#)

Quick Search

On the FSM Dashboard, and accessible throughout the rest of FSM, the Quick Search box supports multiple search criteria. Here is a quick video demo of the Quick Search:

This will pull up the Work Order or Task details screen.
Example of a Task:

← **Task details: T/720/2024**

Task status Unscheduled

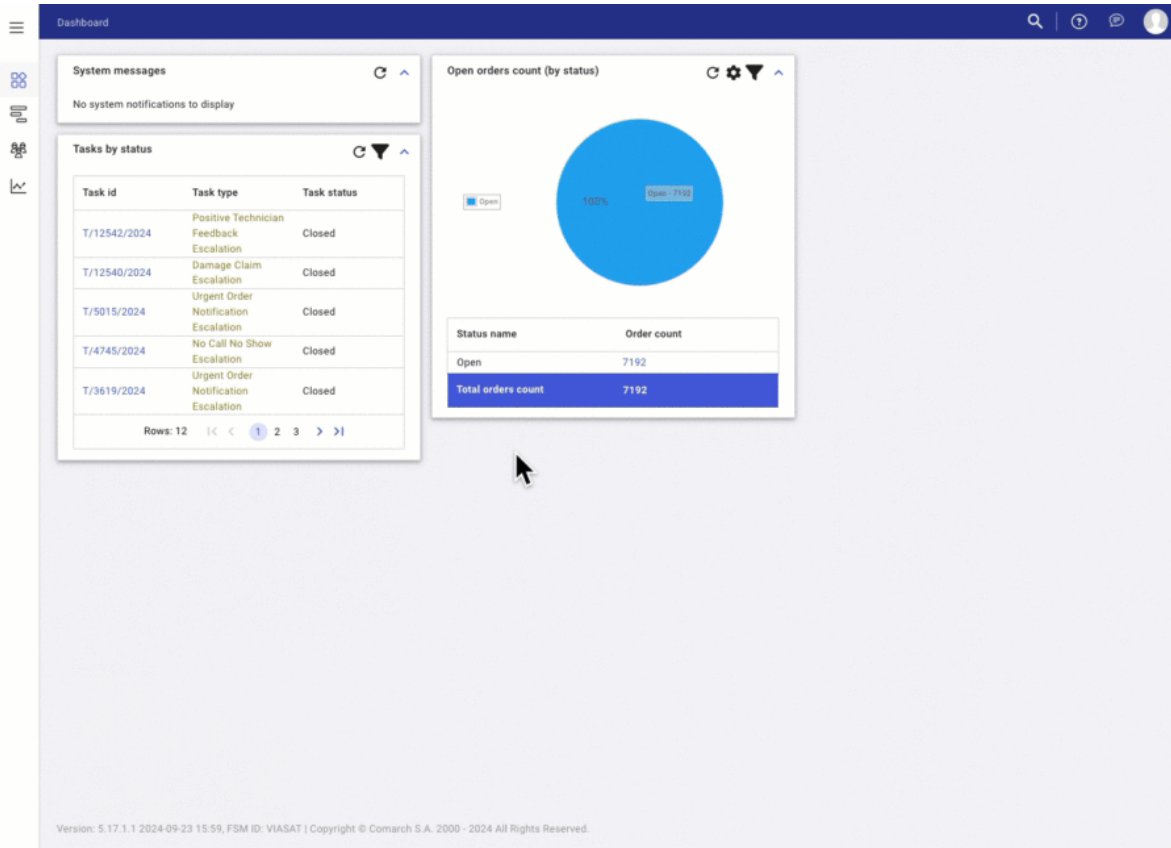

Basic data Customer Equipment and services

Basic data	
Task id	T/720/2024
Work order id	WO/694/2024
Technology	Internet
Work order type	Customer Work Order
Task type	Install

[Top of page](#)

[Browse Orders](#)

Using Browse orders to search for:

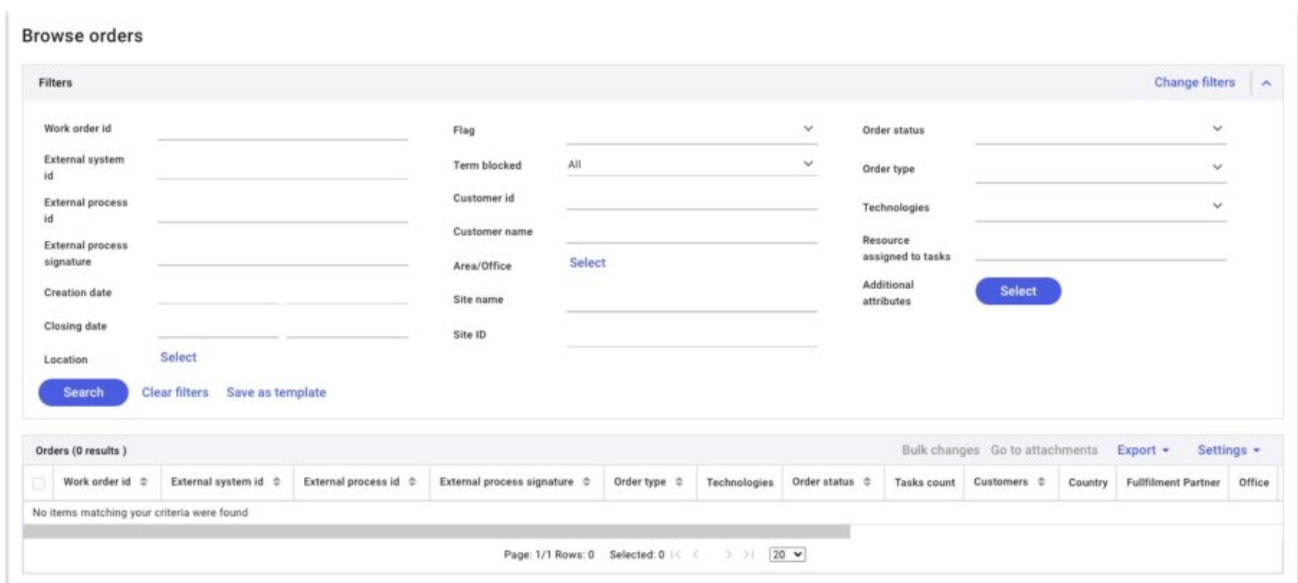

- Work order id
- External system id (Orders possibly migrated from FSM v4 into v5)

From the left side menu options, under FSM, select Browse orders:

- This will bring up the Browse orders screen.

- Enter the Work order ID or any filters in the Work order ID field and then select Search.

Select the Work order id link in Work order id column in

search results to pull up the Work order view.

Orders (7145 results)								Bulk changes	G
<input type="checkbox"/>	Work order id	External system id	External process id	External process signature	Order type	Technologies	Order status	Tasks count	
<input type="checkbox"/>	WO/9741/2024				Customer Work Order	Internet	Open	1	
<input type="checkbox"/>	WO/9740/2024				Customer Work Order	Internet	Open	1	
<input type="checkbox"/>	WO/9739/2024				Customer Work Order	Internet	Open	1	
<input type="checkbox"/>	WO/9738/2024				Customer Work Order	Internet	Open	1	
<input type="checkbox"/>	WO/9737/2024				Customer Work Order	Internet	Closed	1	
<input type="checkbox"/>	WO/9736/2024				Customer Work Order	Internet	Open	1	
<input type="checkbox"/>	WO/9735/2024				Customer Work Order	Internet	Open	1	
<input type="checkbox"/>	WO/9734/2024				Customer Work Order	Internet	Closed	1	

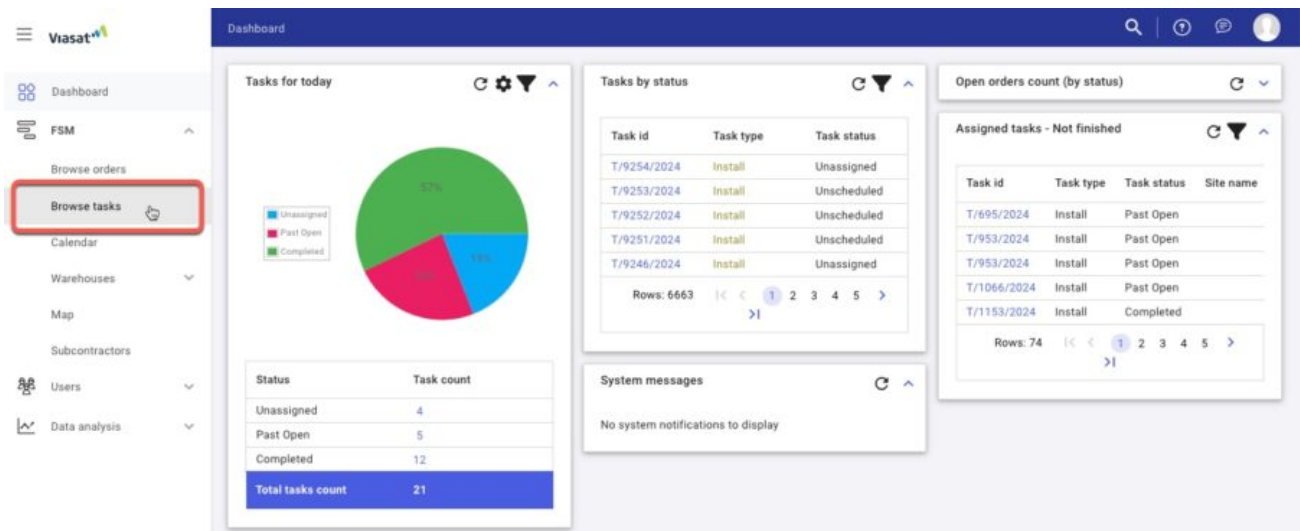

[Top of page](#)

[Browse Tasks](#)

Using Browse orders to search for:

- Task id
- Work order id
- Task external id (Orders possibly migrated from FSM v4 into v5)

From the left side menu options, under FSM, select Browse tasks:

This will bring up the Browse tasks screen:

Browse tasks

The 'Browse tasks' screen features a 'Filters' section with the following fields:

- Task id
- Work order id
- Task external id
- Work order status
- Task status
- Assigned employee type
- Assigned employee
- Area/Office
- Is locked
- Is blocked
- Create date
- Close date
- Appointment slot date
- Actual working time
- Technology
- Location
- Location range
- Item types
- Contractors
- Work order type
- Task type
- Task flags
- Priority
- Customer id
- Customer name
- Site name
- Site ID
- Additional attributes
- Additional attributes of Work Order
- Additional attributes of Items

At the bottom of the filters section, there are buttons for 'Search', 'Clear filters', and 'Save as template'. A 'Change filters' link is also present in the top right corner.

Enter the Task id in the Task id field and select the Search button to view results.
