

Tech Bulletin: Introducing Viasat TextLine

Introducing Viasat TextLine

Hello,

You talked and we listened! Viasat is excited to roll out a new program designed to keep technicians notified and up to date on the latest information, new products, and trainings via Text!

The Viasat TextLine is a completely voluntary opt-in service that will allow Viasat to text technicians directly with known network or provisioning outages, information on new products, updated training material, and TechTalk videos.

To opt in, simply text **Viasat** to **833-948-2449**. To opt out, text **STOP** to the same number.

Text messaging rates may apply. Viasat will not track or share your phone information for any purposes but may need additional identifying information for contest or prize giveaways.

To learn more watch this special episode of TechTalk:
<https://eguide.field.viasat.com/>

Using the Viasat TextLine will be the best way to stay up to

date with the latest information and resources. Opt in today!
