

Tech Bulletin: January TechTalk video: New installation portal

January TechTalk video: New installation portal

Happy New Year!

With a new year comes new changes. In this month's TechTalk, Mike and Kevin will highlight some of the changes in the new installation portal, which is launching in the coming weeks. They'll also give you some tips and tricks to help make the transition easier. This will be a big change for all US Residential technicians, and this is a great video to watch to help you get ready!

There is training available on this new installation portal in [Viasat Discover](#).

If you have any questions about the new portal, send an email to field.questions@viasat.com and we'll get back to you right away.

Thanks for watching!
