

Tech Bulletin: Technician Start Address in FSM

Technician Start Address

Hello,

Starting on December 7, FSM will begin asking for your **Start Address**. This Start Address is the location where you normally begin your workday to help us get a better idea of the number of miles you drive. FSM will only ask for this information **once** upon logging in, it will be stored in the user profile, and you will not be asked to enter this info again.

Here is what to expect:

Upon logging into FSM, you will be presented with the following menu on PC:

Please enter Start Address

Country*	<input type="text" value="Select..."/>
Address line 1*	<input type="text"/>
Address line 2	<input type="text"/>
City*	<input type="text"/>
State*	<input type="text" value="Select..."/>
Zip Code*	<input type="text"/>

On the Mobile Apps:

Country

FSM Lite:

The image shows a dark-themed user interface for adding an address. At the top left, there is a logo for 'COMARCH' in white text on a blue background, followed by 'FSM' in white text on a green background. To the right of the logo is a blue icon of a door with an arrow pointing left. Below the logo, there are several input fields: a dropdown menu for 'Country *' with 'Select..' as the placeholder; two text input fields for 'Address line 1 *' and 'Address line 2'; a text input field for 'City *'; a dropdown menu for 'State *' with 'Select..' as the placeholder; and a text input field for 'Zip code *'. At the bottom of the form, there are two buttons: 'Add address' and 'Clear'.

From here, enter in the location of where you typically start your workday. Please be sure to select the right country that applies to you and that the zip code and state entered are correct.

After checking your information, select **Save**. And that is it! This information will be stored in your user profile and you can edit this information at any time by going to the new **Users** sub menu option:

This new menu will also allow you to edit a few basic pieces of contact information, such as your e-mail address and phone number.

The image shows a screenshot of the 'Edit user' form. The form is titled 'Edit user' and has a 'Save' button in the top right corner. The form is divided into two main sections: 'Basic data' and 'Start address'. The 'Basic data' section includes four input fields: 'E-mail', 'Address*', 'Phone Number*', and 'Secondary Phone Number'. The 'Start address' section includes five input fields: 'Address line 1*' (containing '123 Test'), 'Address line 2', 'City*' (containing 'Denver'), 'State*' (containing 'Colorado'), and 'Zip code*' (containing '80112').
