

Tech Bulletin: Update Your eSVT URL

Update Your eSVT URL

Hello,

Starting on June 26th, please use the new version of eSVT for Viasat work orders, esvt.viasat.com. The legacy site of esvt.exede.net will no longer be available.

Viasat Tech Tools (VTT) app already directs you to the new eSVT site, and it was updated to handle all work order needs.

If you happen to have the legacy site bookmarked on your phone or tablet browser, please update the URL immediately.
